Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair! just read the bottom to get what we really know and feel about. We know you have recieved many of these, we have more to offer. Please read the bottom paragraph. Thanks

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Randy and Evelyn Clover Also, please stop these hidden taxes you all get the spanish fly about. Liberals just can't stop it. Democracy is destined to fail if those have the power can ultimately take funds from the public treasury for their own benefit. Please stop it. You affect the economy and will without a doubt blame our President for your faliure to use constraint. Just stop it, do not be an ignorant liberal.. God bless you. Sincerely Randy Clover and family. 4180 Pine Mountain Road
Foreshill, Ca. 95631

Sincerely,

rand clover
